

Rising to the Challenge  
“#NoMore” Organ Harvesting Declaration

We the participants in the Taiwan International Religious Freedom Forum have gathered in the spirit of the United Nations Charter, the Universal Declaration of Human Rights, and our deeply shared commitment to human dignity and the fundamental rights of all human beings.

We are deeply concerned about the substantial, credible, and growing body of unrefuted evidence that the Communist Party of China has authorized and sanctioned – and continues to carry out—a systematic program of “organ harvesting” with a horrific and cruel loss of human life. We join the rising tide of voices around the world which stand united in moral condemnation of this barbaric practice inimical to the values of civilized society. To that end, we urge all individuals of good will to embrace and share the following pledge:

“On grounds of conscience and basic humanity, I solemnly pledge that I will not receive or accept, directly or indirectly, any organ transplant from China.”

Adopted in conference at Hsinchu, Taiwan, on this 31st day of May, 2019.
